

DEAR GENTLEMEN OF THE ALLIANCE,

M^a CRISTINA LI C & IVAN S G

IN THE NAME OF HUMANITY

Hereby;

We demand the disclosure of the absolute and total truth to all humanity, you have the necessary means, if for this psychological, emotional, spiritual preparation is required being this list enunciative and non-enumerative, they must be implemented quickly.

We demand the deactivation of all means of control, physical, mental and psychological control, MK ultra technologies , temporary control, electromagnetic control, electronic control and those of exotic natures or technologies unknown to me and that are active having interference in our free will.

We demand to Eradicate, repeal and cease the laws and all related and current agreements-contracts, from the date of application of this order and retroactively.

We demand the restitution of abundance, that the resources of humanity be released.

We demand the restitution of the gifts of the beings that populate this planet.

We demand the restitution of our memories not only the planetary ones, but since we were created.

We demand uprooting from the planet of all those controlling-invading-enslaving beings that still remain, disarticulation of confederations, federations and organizations, whose character is not for the greatest benefit of humanity.

We demand that you go to the divine source and expose to you the absolute and total truth of the situation on earth, if for this you have to make a visit here to the planet, we gladly receive and guide you, if you are not able with pleasure you approach it and we bring it up to date.

Absolute and total cessation of any hierarchy over humanity, from other instances or dimensions or internally.

In the total exercise of our free will, we order and claim to manage ourselves.

So:

We demand the establishment of a negotiating table.

In it we must participate as representing humanity, from a point of view that you have not taken into account.

Maria Cristina LI

Ivan S

At this negotiating table we will represent that other part of humanity prey to inertia and condemned to 300 years to see change.

That humanity that has been subdued for eons and that currently suffers from Post Traumatic Syndrome, Stockholm Syndrome, and any number of limiting things, product of the takeover of our planet by recessive beings.

Among the purposes of this negotiating table is:

The establishment of a magna law for the land.

Act of declaration of sovereignty over the earth and the solar system, by humanity connected to the Divine Creative Source of the Universe in which we inhabit.

Inclusion in the greater community of beings with full rights.

Discussions and establishment of concrete plans to carry out what is required.

All the above free of conditions.

It seems advisable to remember, "the Laws that govern this universe are being breached". Date: 6/6/2022
